TECHNICAL RIDER

rev. Sep 2021

In the event that the purchaser is providing sound/lights/stage/backline, equipment and power shall be provided, at no cost to the artist, that will meet or exceed the following specifications:

Loudspeakers

A 4-way system capable of delivering even coverage over the entire venue (*especially dance floor*) at a Sound Pressure Level of 105 db (A weighted) across the 30Hz to 18kHz bandwidth. These speakers MUST be of professional quality, sufficiently powered/processed, all in phase and in proper working order.

For smaller events where PA is not flown then speakers on tripod stands MUST extend to **6ft** above the ground.

Mono cluster and subs on an aux is preferred when possible

Console

Capable of 32 inputs, 16 aux outputs / stereo mains

Digital console: Midas M32 preferred.

Monitors

1 x Drum wedge

2 x Horns wedge

2 x Stage Fill wedge (Please refer to stage plot)

Monitor speakers should be a 2-way speaker design with a minimum 12" woofer

IEM's

6x wireless IEMS

Shure PSM 900 or Sennheiser G4 or newer in-ear system preferred.

Mics/DI's/Stand

Shure UHF-R series or equivalent: 4x handheld transmitters. **Refer to stage plot*

System Tech

Band does not typically travel with a sound engineer - Advance with Production Manager to confirm.

Please provide a friendly, qualified system engineer capable of setting up, operating, and troubleshooting all aspects of the sound system as well as an experienced FOH Engineer.

Lighting

Please provide a friendly, qualified LD in addition to: Intelligent DMX controlled upstage and downstage LED Stage Wash, 6+ ellipsoidal fixtures focused for face lighting, and a minimum of 4 upstage moving head fixtures. Venue permitting, haze is requested to enhance light show.

Stage

Purchaser shall supply a **MINIMUM** of 24' wide x 20' deep x 2' tall stage, at no cost to the artist.

All decking shall be sturdy, locked together, and level.

Additionally, an 8' x 8' x 2' ft upstage riser is required for drums.

Sound Control

In the instance that the event is being held indoors, it is STRONGLY suggested to provide pipe and drape along the back wall behind the band, and along any non essential windows or hard walls within the room.

Power

Four(4) separate 20 Amp/120V circuits, each with a quad box having standard 3 prong grounded receptacles, and dedicated to Band backline gear. If power is other than 120V/60 Hz, US outlet type stepdown transformers MUST be provided for all backline circuits

Four (4) additional separate 20 Amp/120V circuits are required if Band is providing sound and lights. These additional circuits are to be placed at the back of the stage, dedicated to Band and not shared with other vendors such as décor or catering.

All required power for sound and lighting shall be provided by the purchaser at no cost to Band.

Initial: _____

HOSPITALITY RIDER

Green Room

Purchaser shall supply a comfortable green room for the **EXCLUSIVE** use of the artist, at no cost to the artist. The Green Room shall be in reasonable close proximity to the stage, at least 15' x 20', with seating for Thirteen (13).

Greenroom should be room temperature, and climate controlled if temperature is above 80 °F or below 70 °F. (21°C - 26°C)

In addition, buyer/venue shall provide the following items:

- A) Twenty four (24) 12oz water bottles for exclusive use of performers during set up and performance.
- B) Fifteen (15) Hand Towels, for exclusive use of performers during set up and performance.
- C) Mirror, clothing rack, iron and ironing board or steamer, and 120v power outlets.

Food

- A) An assortment of drinks including coffee, tea, soft drinks, and a variety of juices etc.
- B) A hot meal on the evening of the performance for Thirteen (13) adults, suitable for the venue, served at a time when the band is able to eat it while still hot.

Please communicate with Travel and Hospitality Manager to confirm time that food will be served.
Nikki Green (nikki@greenentertainmentusa.com)

- C) Please NO "sack lunch" items or sandwiches.

Parking

A secured parking area within reasonable distance of venue backstage/loading dock entrance. All parking permits and permissions **MUST be paid for and arranged by purchaser.**

The parking area should have enough room for the following vehicles:

- A) One (1) production truck and or trailer (minimum 40 ft).
- B) Two (2) passenger size vans or vehicles.

BACKLINE RIDER

Keyboard:

- 1) One **Roland RD-800, RD-700 GX or RD-700 SX professional keyboard**
Must include two brand-compatible sustain pedals
*Alternate: Yamaha, **XF8, ES8**
- 2) One **Korg Krome** (61 non-weighted keys) or **Korg Kronos** (61 semi weighted keys) keyboard.
*Alternate: **Yamaha Motif 6** (61 non-weighted keys) if Korg keyboards are unavailable.
- 3) One **X-Type Pro 2-tier keyboard stand**
Configured and capable of supporting two keyboards, and adjustable to a standing-height position

Guitar Amp:

- 1) **Mesa Boogie Lonestar combo amp** with footswitch
*Alternate: Fender Deluxe 112
- 2) Two **(2) Guitar stands**

Bass Amp:

- 1) **Markbass Bass Head with 4x10 or 6x10 cabinet**
*Alternate #1 Aguilar head and 4x10 or 6x10 cabinet
- 2) Two **(2) Guitar stands**

(minimum)

DRUM RISER:

8' x 8' x 2' tall

STANDS:

- 11 - Tall Boom Stand
- 4 - Short Boom Stand
- 3 - Music Stands

Wallpaper Animated Graphics

As part of our dynamic presentation, we incorporate animated video graphics to display on TV's, projection screens, and LED walls. When video support is supplied by the venue or purchaser, these show and atmosphere enhancing graphics are easy to integrate into existing presentations or as standalone visual party boosters. Our graphics are in "Hi-Def" (16:9). We can provide these graphics in Mp4 or MOV format files.

When projectors and screens are provided, there is no charge to use our custom graphics presentations.

If added as a standalone system, the cost is typically around \$1500 for a projector and one screen and \$2500 if two screens and projectors are utilized.
